

Loan Bank Spotlight Item: Headpod

Now available to check out through the loan bank!

Headpod is a simple positioning device to facilitate head control. It is a good alternative to other head supports when added head control is needed. It works well for people with weak musculature and even for those who tend to “pull” their head forward in sitting. It utilizes an attachment bracket that works on a variety of wheelchairs and seating devices, and can be easily removed and reattached.

See the Headpod in use at:
