

Spotlight Items

Grooved Platform Communicator

Ideal for teaching communication skills and object/word relationships.

Three location, voice output communication device that allows the placement of objects corresponding to the location.

Compartment Communicator w/Light & Sounds

A communication tool designed for teaching language skills and concepts; switches are associated with selected objects, pictures or words placed in separate compartments on the device. When the separate switches are touched, unique tones with lights are activated, to confirm response.

Partner Plus

A single message communication device that easily interlocks with other Partner Plus's to create multi-message communicators. An elevated platform and a slot for objects or picture cards makes it a great tool for teaching object discrimination. Can record and playback messages up to 30 seconds in length.
