

Spotlight Items

The Fusion portable keyboard was added to the SWAAAC loanbank this past fall. It comes with a long list of desirable features currently available on portable word processors, including Text-To-Speech. While it is a great tool to support struggling writers, it can also be used as a low cost TTS, AAC solution.

To learn more about the Fusion, visit the Writer website at:

http://www.writerlearning.com/fusion_overview.php
