

## SHORTCUT SHEET

### INTELLITOOLS CLASSROOM SUITE

IntelliTools Classroom Suite brings together into a cross-platform, network-ready integrated suite of three classroom tools:

- *IntelliPics Studio 2*<sup>®</sup> - a multimedia presentation tool
- *IntelliMathics 2*<sup>®</sup> - a virtual math manipulative tool
- *IntelliTalk 2*<sup>®</sup> - a talking word processor and writing tool

IntelliTools Classroom Suite is a software platform for delivering K-6 curriculum aligned to content standards. It provides a multisensory environment for differentiated instruction by enabling educators to tailor specific instructional activities to the individual learning needs of students. Features include:

- Curriculum-based, standards-aligned activities and templates
- Activity answer tracking, record keeping, and student portfolios
- Plus: multimedia authoring tools for both students and teachers

#### TO USE

##### **For PC:**

1. When the CD window appears, click on the **IntelliMathics** Icon.
2. Click on the **Setup** icon
3. Read all notices and click **Accept**.
4. Read all installations carefully and click **Next**. The installation will automatically take place.
5. Open the **Programs Menu** from the Start Button. Click on **the IntelliTools Software** entry and then click on **IntelliMathics, IntelliTalk, or IntelliPics**.

6. The Registration Window will appear. Enter your name organization and registration number from the sticker on the bottom left corner of the CD sleeve.
7. Now you can start using your IntelliTools Application.
8. To Begin an activity: select **File** from the toolbar.
9. Click on **New** and select an activity from the list.
10. Holding down the Control Button while clicking on the palette, (or item menu on the left side of the screen) specific items, or the screen opens properties of the tools and document, respectively.

#### **For Mac:**

1. Insert the IntelliTools Classroom Suite CD into the CD-ROM drive. A CD-ROM icon will appear on the desktop.
2. Double-click the either the **IntelliMathics, IntelliTalk, or IntelliPics** installer icon in the IntelliTools folder. This will start the automated installation process.
3. Click **Continue** on the Application logo and follow the on-screen instructions to complete the installation.
4. Restart computer and open the application from the Desktop or the Hard Drive.
5. The Control-Click command also works on Macs to edit properties of the palette or screen.
